> **IGLOO SHELTER**

Unique beach shelter with improved adjustable extender bars that can be erected in seconds on most surfaces. Adjustable height depending on how far apart legs are spread. Rolls up straight, big enough for two anglers and all their tackle. Lays flat on the ground before erecting, making it exceptionally easy to put up, even in high winds! Angler can sit on their tacklebox and still have plenty of headroom ... even when wearing a head lamp! Velcro straps to hold spare rods when fishing. You can even stand up in it.
